

GALAXY XL

SOLID VINYL TILES

UNIQUE PRODUCT FEATURES

Unlike normal vinyl floors, the Galaxy XL can withstand changing temperature conditions. The stability of the vinyl plank makes it a better option for large area flooring as compared to conventional vinyl planks.

Extra large vinyl planks to give you an impression of a spacious and elegant interior. Each vinyl plank is further enhanced with a satin matte finish on its surface.

Made from rigid vinyl, Galaxy XL has a solid core that has anti-telegraphy properties and is easy to install. This feature effectively eliminates print-through effects caused by subfloor with uneven surfaces or tile joints.

The Galaxy XL vinyl floor reduces footfall noise with its 1.5mm acoustic underlayment and gives your barefoot a comfortable walking experience. The vinyl floor is quiet even when walking with your shoes on.

Galaxy XL vinyl planks are free from harmful phthalate and is certified A+ for low level emission of volatile substances. This helps eliminate eye and respiratory irritations caused by volatile organic compounds (VOC) fumes.
